

EASY WHOLESALE INVENTORY LISTING PROCESS

Quickly turning your aged inventory on OPENLANE is easier than ever! OPENLANE has a bridge with over 20 inventory management partners to get your vehicle data, pictures, and options loaded straight into our system in the “pending listings” status. Simply let your OPENLANE iDEAL specialist know (the person who helps you with wholesaling your inventory) the name of your inventory management provider or send a request to pals@openlane.com and we’ll take care of the rest. We are adding new partners every month, so if you don’t see your inventory management provider below, let us know and we’ll get it taken care of.
